

**WE HAVE
DELIVERED HIGH-
QUALITY
SOLUTIONS TO
SATISFIED CLIENTS
ACROSS VARIOUS
INDUSTRIES.**

At DM Polymers, we are a trusted and government-authorized distributor of high-quality plastic raw materials and custom ID cards. With a strong network of premium suppliers and a commitment to excellence, we provide industries with top-tier thermoplastics, engineering plastics, and custom-colored materials tailored to diverse applications.

TRUST”**

**Government Authorized Supplier of
Premium Plastic Raw Materials & ID
Cards**

GSTIN: 33AWWPV3723F1Z4

OUR MISSION:

To provide premium plastic materials with a strong focus on quality, affordability, and customer service.

OUR VISION:

To be a leader in plastic distribution, driving innovation and sustainability in the industry.

OUR PRODUCT RANGE

THERMOPLASTICS & COMMODITY PLASTICS

Our thermoplastics offer a balance of affordability, durability, and versatility for a wide range of industrial and consumer applications.

POLYETHYLENE (PE - LDPE, HDPE, LLDPE)

Flexible and durable, used in packaging, pipes, and containers.

POLYPROPYLENE (PP)

Lightweight and chemical-resistant, ideal for automotive parts, medical containers, and food packaging.

POLYSTYRENE (PS - GPPS, HIPS)

Rigid and impact-resistant, commonly used in disposables, packaging, and insulation.

POLYVINYL CHLORIDE (PVC - RIGID & FLEXIBLE)

Excellent for pipes, cables, flooring, and medical tubing.

ENGINEERING PLASTICS

We supply high-performance engineering plastics known for their durability, strength, and resistance to heat, chemicals, and wear.

VOLGAMID (NYLON/PA 6, PA 66, PA 12 & MUCH MORE)

A premium material with high mechanical strength, wear resistance, and excellent thermal stability.

POLYCARBONATE (PC)

Exceptional impact resistance and optical clarity, ideal for safety equipment, automotive components, and electrical housings.

ACRYLONITRILE BUTADIENE STYRENE (ABS)

Tough and rigid, perfect for electronic housings, automotive parts, and consumer goods.

POLYOXYMETHYLENE (POM / ACETAL)

High stiffness, low friction, and excellent dimensional stability for precision parts and gears.

POLYETHER ETHER KETONE (PEEK)

High-end engineering plastic with superior heat, chemical, and wear resistance, used in aerospace and medical industries.

COLORED & MODIFIED PLASTICS

We provide tailor-made plastic solutions with customized colors and additives to enhance performance.

CUSTOM-COLORED PLASTICS

Wide range of color masterbatches to match your brand identity.

UV-STABILIZED PLASTICS

Protection against sunlight degradation, perfect for outdoor applications.

FLAME-RETARDANT PLASTICS

Enhanced safety standards for electrical, construction, and automotive industries.

GLASS-FILLED & REINFORCED PLASTICS

Increased strength and rigidity for high-performance applications.

CUSTOM ID CARD MANUFACTURING

In addition to plastic raw materials, we also specialize in custom ID card production with premium quality designs and high-resolution printing.

WHY CHOOSE US?

PREMIUM QUALITY & RELIABLE SUPPLIERS

We work with top-tier suppliers to ensure the highest standards.

FLEXIBLE ORDER QUANTITIES

Whether you need 1kg or bulk orders in tonnes, we support all requirements.

AFFORDABLE PRICING

Competitive rates with no compromise on quality.

ON-TIME DELIVERY

Efficient logistics for fast and reliable order fulfillment.

EXPERT SUPPORT

Our team is committed to providing exceptional customer service and technical guidance.

OUR COMMITMENT

As a government-authorized supplier, we adhere to the highest standards in the industry. Whether you need raw materials for manufacturing or custom ID card solutions, we are your trusted partner in delivering excellence.

VERSATILE SUPPLY

Whether you need bulk raw materials for large-scale production or small quantities for specialized applications, we are your one-stop solution with a wide range of high-quality plastic materials available in various colors, grades, and compositions.
